Mr. & Mrs. David Majors
651 White Bridge Road
Gillette, New Jersey 07933

Dear Mr. & Mrs. Majors:

This is to provide you with a summary of what was discussed at our meeting of October 11, 1990.

The meeting was attended by Mr. & Mrs. Majors (property owners), Dick Salkie, Mike Neill and Pat Seppi (EPA).

- EPA asked for access to the Major property to perform air and soil sampling. The Majors agreed as long as they are aware in advance that someone will be on their property. (The signed access agreement is still with the attorneys).
- EPA stated they will re-establish the horse ring on another portion of the Major's property.
- EPA gave a "very tentative" schedule for start of sampling. Surveying and sampling should begin during the week of October 22, 1990.
- The property slated for the new horse ring will be tested first.
- EPA restated that the existing horse ring must be closed down.
- EPA agreed to provide Majors with all test results.
- Majors requested using local contractors when possible.
